

Investment Banking Analyst/Associate – Energy

Haywood is currently recruiting for an **Analyst/Associate**, depending on the successful candidate's applicable experience, to join its Energy Investment Banking team, reporting directly to the Head of Energy Investment Banking, based out of Calgary. The position is open to candidates located in either **Vancouver or Calgary**. The team services the full spectrum of energy companies, through both private and public financings, merger and acquisitions advisory, and valuation services. The ideal candidate has strong analytical abilities, excellent computer skills with Microsoft Office, basic knowledge of the industry, and excellent communication skills. The position will appeal to highly motivated individuals that are interested in pursuing an investment banking career in an entrepreneurial working environment.

Responsibilities include, but are not limited to:

- Development of financial models relating to merger and acquisition transactions, asset valuations and capital raises,
- Analysis of financial, industry, and market data,
- Preparation of presentation material for clients regarding the raising of capital or merger and acquisition opportunities,
- Attending meetings with clients both independently and alongside senior staff,
- Performing specific company and industry research,
- Liaising with various departments across the firm,
- Maintaining in-depth databases.

Requirements:

- Undergraduate degree,
- 1 – 3 years of relevant capital markets experience,
- Ability to work in a demanding, sometimes pressurized and fast-paced work environment,
- Exceptional financial modeling and analytical skills,
- Highly motivated with the ability to work independently and within the larger team,
- Excellent organizational skills and attention to detail,
- Energetic personality with strong interpersonal skills,
- Excellent presentation skills (written and verbal communication, PowerPoint creation),
- Availability and willingness to periodically and spontaneously work overtime and weekends as needed.

Assets:

- Finance, Accounting, Engineering, or other technical degree,
- Enrollment in or completion of the CFA designation or other professional designation (CA, P. Eng.),
- Prior industry experience in an engineering or geology role at an energy company,
- Experience with Bloomberg, XI Tech, geoSCOUT, Value Navigator.

If your background and experience is well suited to this role please submit your resume and cover letter to careers@haywood.com quoting position title in the subject line. All applications will be held in the strictest confidence.

We would like to thank all candidates for their interest in this position however, due to the high volume of applications received, only those candidates selected for an interview will be contacted.
