Dear CIRO:

RE: CIRO RULE CONSOLIDATION PROJECT: PHASE 1

The Investment Industry Association of Canada's (IIAC) members comprise the vast majority of Canadian Investment Regulatory Organization (CIRO) member firms.

CIRO's rules and their consolidation are of deep consequence to our members. The IIAC has endeavoured to provide a careful and measured review of the proposed changes and will continue to do so throughout the project.

In so doing, we provide the following general comments and observations:

- I. So that input may be provided by members on an informed basis,
 - a) the proposed rules in Phase 1 and in each phase to follow should be available for further comment and consideration prior to the comment period for the next subsequent phase.
 - b) the proposed consolidated rules in their entirety should similarly be available for further comment and consideration before being finalized, for cumulative effect and consistency.
- II. A schematic of the rules that will be impacted by the proposed definitions in Phase 1 would be helpful. We have reserved comments on certain definitions pending their proposed application in the rules.
- III. With regard to paragraphs, I and II above, once finalized, the rules should be applied concurrently rather than in phases.

- IV. The final rules should contain a clear written statement delineating them from guidance notices. As a matter of good policy:
- a) Guidance notices should not be interpreted as rules or rule supplements. Guidance notices may provide interpretation assistance, but without new or other expectations that are not clearly set out in the rules.
 - b) Provided the rules reflect and encompass all regulatory expectation, the need to update guidance notices to reflect final revised rules should not pose market confusion. Pending those updates, the outdated guidance notices should not be relied upon by CIRO or its members.

Enclosed at Appendix "A" is a blacklined copy of the proposed amendments to the rules which are the subject of Phase 1 of CIRO's Rule Consolidation Project, with our comments. These comments are listed in Appendix "B".

Enclosed at Appendix "C" are answers to the questions posed in CIRO's request for comment.

Respectfully submitted,

Investment Industry Association of Canada

President and Chief Executive Officer

For listed derivatives, meaning of market value and reasons for different approach from other listed securities is unclear.

Appendix "C"

Question 1: Which of the following rule drafting approaches do you think we should take and why?
Should we:

- generally, permit the use of delegation, subject to specific prohibited exceptions itemized elsewhere throughout the rules? or
- generally, prohibit the use of delegation, subject to specific permitted exceptions itemized elsewhere throughout the rules?

Answer: Delegation should be permitted, with permission clearly stipulated in the Consolidated Rules.

Question 2: Temporary Discretionary Accounts

We have determined that there is no longer a need to make temporary discretionary account arrangements available to clients and will be proposing to eliminate this investment dealer account type as part of future phase of the Rule Consolidation Project.

Do you agree with the proposed elimination of this investment dealer account type? If not, please provide reasons why this account type should be retained.

Answer: This account type should be retained. Investors may prefer not to have Power of Attorney / Trading Authorization while they are away or not available. Further, clients may not always have the means to communicate with their financial advisor. Retaining this account type accommodates and addresses this scenario and offers clients choice regarding how their accounts can be managed in their temporary absence.

Question 3: Account Types that can be offered by Investment Dealer Members and Mutual Fund Dealer Members

Under the Phase 1 Proposed DC Rules, the following account types will be available to Dealer Members:

- advisory account (available to both Investment Dealer Members and Mutual Fund Dealer Members)
- direct electronic access account (available only to Investment Dealer Members)
- managed account (available only to Investment Dealer Members)
- order execution only account (available only to Investment Dealer Members)

Should we consider proposing to allow Mutual Fund Dealer Members to offer managed accounts and order execution only accounts as part of a future Rule Consolidation Project phase and provided they comply with requirements that are materially the same as those that apply to Investment Dealer Members? Any such changes would have to be developed in conjunction with the CSA.

Answer: No position.

Question 4: Regulatory Financial Filing Forms

The existing IDPC and MFD rules require the completion and submission of two different regulatory financial filings forms (both referred to as Form 1). As part of a future Rule Consolidation Project phase, a determination will need to be made as to whether we maintain two different regulatory financial filing forms or one going forward.

Do you think we should maintain two different regulatory financial filing forms or one for both categories of CIRO Dealer Members? Why?

Answer: Two separate forms remain convenient for those operating either or both an investment fund dealer and a mutual fund dealer.

Question 5: Harmonized Approved Person Regime.

There are material differences in the Approved Person regimes that apply to Investment Dealer Members and Mutual Fund Dealer Members. Our intention is to:

- harmonize these two regimes as much as is feasible,
- retain a harmonized regime that continues to stress the important role played by individual Approved Persons in ensuring rule compliance, and
- ensure the harmonized regime accommodates different firm types and business models without introducing significant regulatory burden.

What other factors should CIRO consider in its future phase work to develop a more harmonized Approved Person regime?

Answer: Harmonization of registration, education, including continuing education, and oversight/supervision of business and operations.

Question 6: Categorization of Clients

As part of a future phase of the Rule Consolidation Project we will need to determine whether the use of the “institutional client” / “retail client” categorization should be extended to Mutual Fund Dealer Members and, if so, whether all Dealer Members should be given the option of treating all clients as “retail clients” to avoid the burden of having to categorize clients.

Should all Dealer Members have the options of either: (1) categorizing their clients as either an “institutional client” or a “retail client” and complying with the rules relevant to each client type, or (2) treating all clients as “retail clients” and complying with the rules relevant to retail clients? Why or why not?

Answer: Both (1) and (2) should remain as options open to all dealers. All dealers should be able to categorize their clients as either “institutional” or “retail” and comply with the rules relevant to the client type that the dealer attributed to the client. Also, if the dealer chooses to categorize all clients as retail that should be permissible as well.
